They are an infallible medicine for female complaints generally, and especially for removing those obstructions which are the source of their allments at certain periods; they possess the eminent advantage over most other purgatives, that, while they operate gently, they produce neither cosaiveness, debility, or too great excitement.

Whenever there is a predisposition to receive diseases from marsh effluvia, or from a too copious use of ardent spirits, or from a vinted state of the bile, these pills will assuredly counteract it.

They are highly recommended to travellers by sea or land, and may be made use of with safety without change of diet, and in situations where no exercise can be used. They will be found particularly valuable for preventing diseases incidental to hot climates; they deterge and cleanse viscid humors, open obstructions, and promote the secretion of good bile, operate as an easy cathartic, as a powerful diuretic, and as a disphoretic.

They respectfully tender their professional services to their friends and the public, and invite all who may require the advice and skill of the experienced and practical dentist to call on them, learn their terms and examine their claims to public confidence and patronage. They would particularly call attention to their patent method of fastening artificial teeth when set on gold plate which is used by them alone in the city of Washington. The most prominent advantages are the following:

1st. It naves the pain attendant upon the removal of the roots of the front teeth when in a healthy condition, and makes those roots highly useful in fastening the artificial teeth.

Washington, D. C., Feb. 15, 1843.

Dr. J. Smith Dodge, upon his arrival in Washington to open an office as a Surgeon Dentist, presented to me letters from several friends in New York of the highest respectability and standing, containing the strongest and the most favorable techaracter and his superior professional qualifications. These satisfactory evidences of the man and the Dentist induced me at once to engage the professional services of Mr. Dodge for my own family; and my wife and myself are now able, from personal experience, to add our own equally favorable testismony in his favor as a gentleman and a skilful dentist. This testimony is thus given by me, as well in obedience to the carnest solicitations of respectable and worthy friends in New York, who have for many years experienced the skill and fibelity of the doctor in his professions as to see who have for many years experienced the skill as fidelity of the doctor in his professional mer convictions of his personal and professional mer

The circumstances which first led to this awful state of debility was from taking a very heavy "cold," which seemed to fix isself upon the lungs, which gradually grew worse, with profuse night-sweat, a hacking cough, oppression in the breast, spittung blood, with great general debility. My constitution seemed broken dows, and nervous system very much impaired, with all the symptoms of confirmed consumption. I went to Philadelphia, and was treated there by physicians of the highest respectability, but still grewworse, until they gave me up as incurable, and avised me to go South; but being very poor, after losing so much time from my work, and having spent all my money on various "patent medicines," which were recommended so highly through the medium of the press, I was unable to take their ad vice. Being a member of the order of Odd Fellows they supplied me with money gratuitously to seed me to my friends in Saco, Manne. I was treated by physicians of the highest standing there, but received no benefit whatever from them, but small.
